Summary: Fredico a marine who always wants to get the job done witness his entire team killed and always died if someone haven't saved him. The mysterious savior known as construct is strange in some ways but wants to help Fredico avenge the death of his team. But theres is more to this "construct that meets the eye"

Halo New Hero

Location: Covenant Frigate Cape Of DARKNESS

Mission: Liberate POWS and innocent people from the Covenant

"Lets just find them and get out of here, I don't know why I even agreed to this mission, I could be at the barracks and not here risking my life." "Tom shut the hell up you ungrateful prick, we are here to save lives and all you care about is your self"! "Jake calm down, I am ashamed by Tom's refusal to help others but your screaming could alert the Covenant and would ruin the entire mission if they overwhelm us". "Your right Fredico I will try to keep my voice down". "Shocker try to see if you can get contact with the others". "Ok Fred, I will try my best".

"Dude just run for it"! "I can't they shot both of my legs". "Damn it hold on Bill I am coming"! Alex ran to Bill and managed to pull him out of the line of fire only to be shot in the head with plasma. "Alex god damn it no!" As Bill started to crawl away he saw the rest of his team, or what's left of them. "Damn it so much blood." "Holy shit what the hell happened" Bill turned to see Fredico, Tom, Jake, and Shocker rushing toward him" G.u..ys t..he co..venant know we are here" After a few seconds Bill died of blood lost. "Guys i finished my sweep of the ship, there is no human here accept for us. "Wait shocker that means this entire thing was a setâ€!" Jake was interrupted by the sound of gates opening follow by a spray of plasma. Jake was hit by most of the plasma since he was in front the group and fell down with a thud. The team opened fire back, Only for the doors behind them to open, followed by more plasma. Shocker

screamed as he was ripped to shreds leaving a bloody mess where he was. As Fredico was firing he notice a opened gravity event and tackled Tom into it bringing them to another part of the ship.

"No..no..no this can't be happening." Tom just wanted to get out of here and somewhere else. "Tom this is happening and if we don't find a way out we will meet the same fates of our team mates" Tom pulled out his pistol and aimed it at his own head. "Tom don't" bam. Fredico watched in horror as tom shot himself. The only thing that Fredico wanted was revenge. He quickly gathered up all the weapons he had.

"Two grenades, one assault rifle, a magnum, 5 spare magnum clips, and 3 assault rifle clips". Fredico made it to the spot where the others died and saw the squad that killed them. 6 grunts, 5 elites, 3 have energy swords. Fredico pulled the pins on the two grenades and threw them the explosion killed 4 of the grunts mortally wounding 2, and killed 2 of the elites. The remaining elites pulled out their energy swords and charged. Fredico opened fire with his assault rifle killing the remaining grunts and one of the elites only to be stabbed by a elite who snuck up behind him. "Lets finish this filth." As the elites is about to finish him off a spray of blood spills from the as a sword is impaled through it killing it. As the elite falls down Fredico's eyes widened as he saw who killed the elite. A forerunner knight, but how. The other elite tries to attack the knight but the knight shoots it with a shattershot. The knight aims at Fredico.

"Wait Knight don't." Fredico turned to see someone running towards them. "He's still alive, oh thank god, Knight pick him up we need to get him out of here!" The knight slowly picked up Fredico and threw him over his shoulder. Fredico not knowing what to do just blacks out.

Who is the mysterious beings that saved Fredico, guess we won't know until the next chapter
